- Miniaturised Tesla technology with ultimate efficiency and high-resolution sound
- Universal 3-button remote control with handsfree microphone\*
- Ergonomically shaped housing with perfectly coordinated eartips
- Exclusive materials such as silver-plated, detachable cable and high-gloss housing
- Made in Germany

### OUR VERDICT

If you're looking for an insightful and honest pair of premium in-ears, the Beyerdynamic Xelento Remotes are a great buy

#### +

FOR

Even-handed balance  
Impressive detail resolution  
Good range of eartips supplied

#### -

AGAINST

May not initially impress  
Need a top-class source

### Verdict

If you're looking for capable premium in-ears, the Xelento Remotes should certainly be high on your shortlist. Make sure you shop around, though; you may well find useful savings over the price we've quoted, and that would make them an even better buy.
